WHO WANTS TO FURTHER DEVELOP THEIR SKILLS? ASK ONE OF THE RSO'S ABOUT THE ASI D

CLUB AFFILIATION AGREEMENT

Affiliating with ASI gives your range the opportunity to enhance the main "pillars" of any professional range operation: 1. Equipment and ammunition sales, 2. Range use and training, 3. Safety and gun handling skills shown by your local gun owners, increasing the safety of all.

ASI AFFILIATION BENEFITS

ALL ASI-AFFILIATED CLUBS RECEIVE:

- Direct Consultation from ASI Senior Staff (Our execs will call and coach you. In some cases, we'll send representatives to train your staff on-site in the ASI Method.)
- Access to the ASI Stage Design Database
- ASI Promotional Materials
- Event listing on the ASI website
- Joint promotion of club activities and events
- License to use ASI logos in club newsletters, advertising, and promotion

An ASI-AFFILIATED CLUB MUST:

- Maintain 100% ASI membership among its regular participants.

- Conduct its matches in compliance with the latest ASI Rulebook, using ASI-approved stages. (New ideas are great, but please show your them to us first!)
- Provide a fully completed ASI Affiliate Club Registration form with auto-renewable payment (normally a credit card). Affiliation will cost **\$30/year**.
- Remit \$3 per shooter to ASI following each match.
- **Note:** Once affiliated, ASI club affiliation renews automatically. (No annoying renewal notices.)

Disaffiliation Process:

- Voluntary: Clubs can voluntarily disaffiliate at any time by notifying our offices. Affiliation fees are non-refundable.
- Involuntary: ASI reserves the right to terminate a club's affiliation at its own sole discretion. Cause for involuntary disaffiliation would include, but not be limited to: non-payment of fees, abuse of customer contact information, abuse of ASI's intellectual property, or other conduct likely to bring ASI into disrepute.

Once a club disaffiliates, it may no longer present itself as having any relationship with ASI, use the ASI logo, ASI courses, or any other intellectual property associated with ASI.
